THE LATTER SAY SAN FRANCISCO IS SUFFERING FROM THE FORMER—SAN FRANCISCO KNOWS SHE IS SUFFERING FROM THE LATTER—WHAT THE CHRONICLE SAYS ABOUT THE MATTER.

The following account of the conference of health authorities lately held in Washington to consider the subject of plague, some notice of which has appeared in the cable dispatches, was published in the San Francisco Chronicle:

WASHINGTON, Jan. 19.—The plague conference held here today was conducted in a very peculiar manner, and Dr. Gardner of San Francisco returns home breathing vengeance. He says he was never treated with such discourtesy in his life. A little private caucus of the Health Board's representatives was held last night at the New Willard, from which Surgeon-General Wyman was excluded and from which it was at first proposed to exclude Dr. Gardner. Dr. John S. Fulton of Maryland appeared to be the leading spirit, and his bitter hostility to San Francisco was apparent in every move.

Finally Dr. Gardner was admitted. He said he brought word from Governor Pardee and Mayor Schmitz that anything desired by the Government to assist in handling the situation, whether money or support, would be cheerfully given by the State and city authorities. The doctors present refused to accept Gardner's word and demanded written promises from Pardee, Schmitz and the State and city boards of health. Gardner replied that he could get a telegraphic statement from Pardee and Schmitz, but that the State Board of Health was scattered from Los Angeles to Oregon, and that the demand made upon him was preposterous.

After organization another caucus was held, from which Surgeon-General Wyman was again excluded, although made president of the conference by law. The conspirators then passed a resolution offered by Fulton asking the Secretary of War to move the transport service to Seattle. In this Dr. H. M. Bracken of Minnesota was an active supporter of Fulton, presumably through the influence of the J. J. Hill interests, which control Minnesota.

The resolution passed—8 to 7—Dr. Gardner being able to influence those near him to vote against it. Then Dr. Fulton moved to reconsider the vote, and the resolution was reconsidered and abandoned, as the vote showed that those present were evenly divided, and the opponents of the resolution expressing their intention to dig into the meaning of such action and expose the motive behind it. Dr. Gardner stoutly opposed the resolution adopted, especially that portion which declares that the plague was carried to Mazatlan from San Francisco. He denounced this report as an outrageous lie.

SAW STRANGE LIGHTS.

Members of the crew of the barken-
tine Kikikat which arrived yesterday
40 days from Port Ludlow, report that
when about 11 days out they saw some
odd looking lights. The lights were
too close to the water to be the lights
of a vessel. Some one suggested that
they might be the lights which were in
life boats being lowered. The Kikikat
stood by but got no further trace of the
lights. She saw no wreckage and
sighting nothing of the overdue ship
Florence.

HAD A PROSPEROUS LOOK.

Former Peavine—By Jings, four dif-
ferent fellers stopped me on the street
today and asked me if I didn't want to
put a thousand in an investment that
paid 500 per cent a month. Gosh, I
guess I must look like Jay Gould or Jay
Cooke or some of them financiers.
City Nephew—Oh, they undoubtedly
took you for one of the jays, uncle.

A New Home Sewing Machine

Is generally regarded as the best Machine
on the market to-day.

In these days while some manufacturers are flooding the country with worthless sewing machines and issuing circulars wherein they have copied the legitimate claims of reputable companies, many purchasers become bewildered and puzzled and find it difficult to make a selection. The popularity that the New Home Machines have earned and which they maintain throughout the world is evidence of their superiority and as we have always enjoyed the enviable reputation of handling only first class machines, there need be no hesitation in buying from us. We also handle the Pan-American Hand Sewing Machine.
